## PROGRAM

I was unable to hear enough of the program because the speaker spoke too quietly for me to hear my recording . Maybe I will have to put my recorder on the podium in front of people who do not project. The Main Idea of Osher Life long Learning Institute that I got from going to their web site was that "An active mind never stops learning. Osher Lifelong Learning Institute offers a wide array of stimulating courses and events to address the continuum of life experience and a diversity of interests for active minds, age 50 and up. Join OLLI today and explore new horizons for lifelong learning through our diverse curriculum. **Community**—courses and excursions in local and international travel and special interest groups that promote acceptance and a profound understanding of the world we live in. **Discovery** topics of intellectual interest in various academic disciplines. **Longevity**—classes that speak to learners where they are in their lifespan, serving a variety of interests and experiences that address physical and men
