## PROGRAM

Much of Joy's program was on MOW's "Operation Accelerate which she started when she became the Executive Dir. of MOW . Back then 8100 seniors were in poverty and MOW was only serving 380 of them. Since, they have increased to serving 730. Within a year it is this number will be increased to 2,000. A factor involved in this increase is addition of a new 5,000 sq. ft kitchen in Winters. Also more employees have been added. Other projected improvements that will help them increase their coverage include re-opening of kitchens in West Sacramento, and Davis and expansion of coverage to Clarks burg and Dunnigan. Details involving meals delivered ,congregate dining in Woodland, more volunteers needed and details of routes were among other topics presented.
